PRESIDENTS CORNER

Happy new year BarnStormers..... we have a lot of things working this year.

Starting off soon the shell of the building will be going in where the new slab is under the pavilion...

After the February meeting we will be having a work day. We are going to be doing maintenance on all the equipment to get it ready for this year's grounds keeping...

After our March meeting we will be doing some grounds keeping getting the grass and runway ready to go, that will include rolling the grass runway, putting out some fertilizer, ain't killer, possible getting concrete runway ready to repaint the stripes on it...

We also have the new electric going in on the south end of your parking area. That still also needs help with!

Again there is alot going on this year and we would appreciate everyone's help where you can.
